

## Year 1 Autumn Tern 1

This term in science we have been learning all about our bodies. We have really enjoyed learning about our senses, using each one to carry out a detective experiment. We also cre-

ated sensory bottles for children in nursery. We wanted them to stimulate the sense of sight, sound and touch for the younger children.

In History we have been learning all about Florence Nightingale and Mary Seacole.

As part of our RE topic we have visited our local Church. We were able to look around and learn about the church as a special place. We even had a turn to ring the bell!

In art we have been working on self portraits. We have enjoyed looking at and creating different portraits including abstract, realistic and pop art in the style of Andy Warhol.
