

# Fighting Fit

## Year 3 topic Spring Term 1st Half 2018

Our Anglo-Saxon visitor helped us to learn more about this period of history.

To link with our Science topic about nutrition, we designed and created our own healthy sandwiches and packaging.

We used art straws to create skeletons in our Science topic.

The School Nurse came to school to talk to us about keeping healthy and looking after our teeth.

In Computing, we worked in teams to create our own Keep Fit sequences.

We enjoyed designing and making our own Anglo-Saxon shields.

We have been developing our reading skills in lessons and through using Accelerated Reader.

The E-Cadets worked with our class to develop our understanding of staying safe on the Internet.
