

The Stone Age to Bronze Age

Year 4 Spring 1

This term we had a fantastic visitor to help us learn all about the Stone Age. She helped us understand what life was like during that time.

In Science we have been learning about the digestive system. We really enjoyed investigating what happens to our food when we eat it.

We have learnt about different festivals in French.

We created super Stonehenge pictures

During our time in the computer room we have been learning how to create Powerpoint presentations. In PE we have been trying really hard with gymnastics.
