

It's about to erupt!

Year 3 topic Spring Term 2nd half 2018

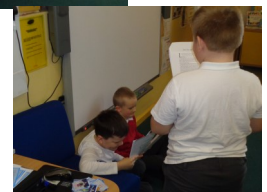

In French we read the story 'Les Quatre Amis'. We worked in groups to retell the story using role-play.

In Science we learned about Mary Anning and became palaeontologists ourselves, searching carefully for the fossils that were hidden in the rocks.

We designed and created our own volcano models using recycled materials.

In Maths we looked at measures. We ordered ourselves from tallest to shortest.

We retold fables and wrote our own versions.
